School: Budiriro 4 Primary School

Topic: A dream come true

Everyone has a dream that he or she would want to achieve. First and foremost a dream is a hope or wish.

My dream was to have a cell phone. The day before my birthday I prayed to God for my wish, on my birthday when people started to give me presents my father gave me a cell phone that day I was so happy. Nowadays I am researching on my homework and school CALA, I am getting in contact with my friends, relatives and teacher. I am playing games like dream league and many more. I am now doing online lessons and am in the school group.

I am so happy that I am playing online games.
