

A DREAM COME TRUE

One late night I started dreaming of me winning a golf trophy and coming first place in the junior division. After that night I started working hard to achieve that dream. I worked for days, but when there was a competition, I never won anything. Then I knew that there will be another competition in the August holidays. I started practicing more. The competition was for two days Saturday and Sunday. On the first day I was scared and terrified. The next day I woke up and got ready for my dream to come true. I got two trophy's and one bag pack. And finally, my dream came true.
