

A dream come true by Ryan Thabo Makaza

118 words:

I had a dream just like other children to be able to pass and achieve first position and make my family proud. I yearned for this since the first grade and I never gave up. We had our end of term examinations, scared by the hard questions I was afraid I would fail. As we received results my hands were shaking as I opened my report, I screamed with joy, I was first position.

Dreams take time to materialize, one must never give up. I have learnt to stay focused, work hard, and believe in myself. My family was proud, so was I, it was a moment of fulfillment. I learned to persevere and trust in my abilities.
