### **Emmy's Star: A Dream Come True**

"I wish I could keep a star in my room and gaze at it all day..." Emmy whispered during her late night walks with Grandma.

"Dreams come true," Emmy's Grandma said.

Emmy's school announced a science competition later that holiday. The winner would get a trip to space.

Emmy did not sleep that night. She drew stars in a beautiful line around a moon.

The next day, she gave her presentation. Emmy won the competition.

Soon Emmy was in space. She got a chip of a star and held it tightly in her little hand.

When she got home, Emmy put her star in a colourless bowl in her room.

"Dreams do come true," she said smiling at her star.
